

# Lifestyle-Fabrics

## schoeller®-spirit – uncompromising fabric design

Based on the inspiration of our textile designers, schoeller®-spirit fabrics incorporate the visual trend and the optic Zeitgeist of the respective season. A technical look, sheen, a wealth of creativity, lightness and avant-garde fabric designs and innovative raw materials mark the schoeller®-spirit fabrics.

## schoeller®-shape – symbiosis of fashion and function

The trendy schoeller®-shape fabrics combine fashion and functional aspects, natural fibres and hightech yarns. Due to the innovative fabric-constructions and modern coating and finishing technologies, they are given versatile looks, feels and functions.

Lifestyle – fabrics for functional fashion and fashionable function.

Particularly attractive looks and a high feelgood factor are the main focus in the Schoeller-lifestyle fabrics for fashion, leisure and business.

### Areas of use:

Pants and jackets for fashion, sportswear, shoes, accessories.

### Basic properties:
